

SNTC Special Needs Trust: preparation checklist

Project 3AM

PLACEHOLDER. This is a blank thinking aid, not legal advice. Fill it in at your own pace, offline. Project 3AM does not collect or store anything you write here.

Things to think about

- ☐ Who is the trust meant to support, and what kind of life do you want it to support?
- ☐ Where might the money come from, for example CPF, a will, or insurance?
- ☐ What would regular payouts be used for?
- ☐ Who knows the person well and could help shape the care plan?
- ☐ Have you involved the person being cared for, where that is possible?

Questions you might want to ask

- How do I apply to set up an SNTC trust?
- What are the current fees, and are there any subsidies?
- How are payouts decided and managed?
- How does an SNTC trust work alongside CPF, SNSS and insurance?

Notes to myself

(Write freely here. This stays on your own device or paper.)
